TECHNICAL SKILLS

- C
- Java
- HTML
- CSS
- JavaScript
- React.js
- SQL

SOFT SKILLS

- Teamwork
- Time Management
- Effective Communication
- Logical Thinking

TOOLS

- Figma
- Framer
- Git

AREA OF INTEREST

- DBMS
- Data Structures

CAREER OBJECTIVE

Motivated computer science graduate seeking an entry-level position as a Software Developer to apply my programming knowledge, problem-solving skills, and passion for building efficient software solutions.

EDUCATION

- B.E - Computer Science Design (2023 - 2027)
  CGPA - 8.59 till 5th sem.
  Kongu Engineering College
- HSC (2023) - 93.16 %
  Little Angels Matric.Hr.Sec.School.
- SSLC (2021) - Pass
  Little Angels Matric.Hr.Sec.School.

PROJECTS

Hack Connect

- Create a centralized platform for hackathons across Indian colleges where students can discover, register, collaborate across institutions, and form teams, promoting innovation and networking—all in one place.

Renewable Energy Management

- Efficiently manage and optimize solar, wind, and battery energy to reduce dependency on grid power, lower electricity costs, and ensure a reliable and sustainable energy supply for the campus.

ACHIEVEMENTS

- Secured second price in presenting our project (Hack Connect) at Proof Of Concept at Kongu Engineering College.
- Smart India Hackathon finalist at 2025.
